

VES Finance Committee

Agenda:

1. Dishwasher Project
2. Van Sales
3. Audit Presentation

The finance committee met October 6, 2020. Scott Anderson, Theresa Knapper Smith, Kathy Skinner and Kari Olson were in attendance.

This dishwasher project has been completed. We need to submit a canceled check to the state to be reimbursed for the accrued costs.

The committee discussed selling the three oldest vans because we have no immediate plans to use them this school year. They are depreciating in value and we are paying insurance on them so it would be wise to sell them and put that money aside to purchase a new van in 2021 or possibly look at van rentals if we would need to take students out of the building.

Scott will contact the auditor and have him make a presentation of his findings at the November meeting.
