2024

January E-Week!

VES Spotlight

Reminder - we do have school tomorrow - Friday, Jan. 12, but no school Monday-Tuesday next week!

Students can access their headrush login from our [website](#)! Have them show you what they are working on!

Check out the new resources page on our [website](#)!

<https://www.voyageursschool.org/student-family-resources/>

We continue to emphasize that we have fewer days in school so **STUDENTS** need to make them count. Attendance, showing up as best they can, and being productive, are important. Being present in school will promote success in school. Thanks for your active participation in your students' success in school.

Please call (218)444-3130 or email attendance@voyageursschool.org if your student will be gone from school for any reason. Lunch count needs to be submitted by 8:40 am if your student plans to eat hot lunch. Thanks!

Upcoming Events

- Feb. 19 ~ NO SCHOOL ~ Presidents' Day

Follow VES:

Boozhoo! It is almost time for our second e-week! E-Weeks are a great time for both staff and students to step away from the "normal" school learning to engage in different classes. Classes that are offered this e-week include College Tours, Resin Making, Treat yo' Self, School of Rock, Ribbon Skirts, Ice Fishing, D&D, Winter Survival, and a Winter Competition. Students were informed of what class they are in on Wednesday so be sure to check in with your student! Thanks and wish us all luck!

MS Update
Sam's
Advisory

We welcomed back our students last week with a short three-day week that I think everybody needed to help get back in the swing of things!

The 8th graders are building off their knowledge of the periodic table from before Winter break by diving into chemical reactions and the fundamental laws of chemistry. 7th grade is looking within ourselves as we continue our study of life, our big focus for the next couple of weeks will be cells and all of their functional parts. 6th grade is continuing to study the moon but we are now looking at the phenomenal effects it has on our planet such as the eclipse. Up next is the seasons!

HS Update: Brett
and Austin's
Advisory

As a new year begins, we want to express gratitude for your continued support in fostering a sense of community within our school. Due to unforeseen circumstances, we have fallen behind on some of our service minutes.

However, we are committed to providing our students with opportunities to make up for missed service minutes in the coming weeks. Throughout the next month, we have organized additional service projects and events to allow students to contribute positively to our community. Your child's participation is highly encouraged, as these experiences not only fulfill service requirements but also instill values of empathy and social responsibility.

On a lighter note, it looks like snow is here to stay! The winter season brings with it a sense of joy and wonder, and we are eager to embrace the unique learning opportunities it presents. We do plan to incorporate the magic of snow into our curriculum. Please ensure that your student comes prepared with appropriate winter gear so they can fully participate in these enriching experiences. We look forward to a month filled with both service and snowy adventures. Thank you for your continued partnership in shaping a positive and engaging learning environment for our students. Warm regards,

Brett and Austin
